Patient Satisfaction Survey Comments

The best Team I' ve ever worked with.

Ive had P.T. a couple other times and this is the best so far.

I was impressed with how much time each clinician took to explain what each exercise was more and how would effect my condition.

I loved the communication between the PT.'S and the Dr.

I was very pleased with the privacy and care I received for incontince.

I was so happy to have my family member able to come in and learn what they could do to help with my Lymphedema.
