- Continued Education- Currently enrolled in North American Institute of Orthopedic Manual Therapy
- Program for completion of Certification in manual physical therapy.
- Clinical concepts in foot evaluation and orthotic management

Teamwork is Critical

We base our treatment on the concept of TEAMWORK. When you became part of the Carolina Sportscare and Physical Therapy team, we all work together sharing the common goal of getting you back to an active life.

Education is Key

Our Clients know they are working with highly trained specialists who are committed to expanding their knowledge through continued education and clinical experiences.

To better serve our community we feel it is our duty to share this knowledge with others.

I feel that education is one of the most valuable services I can input to you. When you walk through our doors you will be provided with a thorough understanding of your diagnosis and course of treatment to encourage active involvement in the rehabilitation process. This results in faster recovery, better outcomes, and future injury prevention.
